

Pediatric Gastroenterology Nursing Assessment-Based Certificate Program

Coming Soon

Improve patient care and strengthen your commitment to clinical excellence with an all-new CE program from the Association of Pediatric Gastroenterology and Nutrition Nurses (APGNN).

Customizable, evidence-based education

The program will provide an introduction to the fundamentals of pediatric gastroenterology, with an emphasis on nursing implications

Available as a bundle or a-la-carte, this first-in-the-nation program is customizable to fit the educational goals of pediatric nurses, nurse practitioners, physician assistants, psychologists, dietitians, and other healthcare professionals.

Thirteen learning modules available, including:

- Abdominal Pain
- Constipation
- Diarrhea
- Celiac Disease
- Enteral Tubes
- Malnutrition
- Vomiting
- Allergic GI Conditions
- Obesity & NAFLD
- Gastroesophageal Reflux
- Introduction to Liver Disease
- Inflammatory Bowel Disease
- Disorders of Gut-Brain Interaction

Completion of the program will award the participant a "Certificate in Pediatric Gastroenterology, Hepatology, and Nutrition Nursing"
